Made personal From the start

Custom goods with a point of view. Yours.

Gem.In.Eyes Productions is Chibbi's San Antonio creative house, bringing together poetry, connection and handmade work. The Workshop brings that same care for identity and storytelling to the things you carry, give and gather around.

From leatherwork and engraved keepsakes to signs, jewelry, screen and color printing, and parts for other makers, we design with you and make to order. A name, a memory, a bold color or a wonderfully specific idea can be the starting point.

Work with the maker

Talk directly with Chibbi about the idea, the materials and the details that matter. Whereas mass-market retailers give you line or character limits, here the only limit is your imagination.

Go beyond a preset

Shape the design, colors, finish and personalization around your taste and purpose. Take the general and make it bespoke.

Build your own mix

Choose the pieces and quantities that fit. Every package can be customized to meet your needs.
